SUMMARY

I am a dedicated professional who thrives on continuous growth. Every day, I actively seek avenues to stimulate my creativity, broaden my skillset, and enhance my overall well-being. With over a decade of immersion in the field of Computer Science, my true passion lies in Web Development. Equipped with a diverse range of skills and a deep understanding of the industry, I am confident that I can make a substantial contribution to your esteemed organization.

EXPERIENCE

ICP DAS USA

Septemeber 2021 - Present

Web Developer - Marketing Team

Lead the company to success by bringing new ideas to the marketing team strategy. Improved the website with SEO enriched text. Increased production quality on website content in forms of text, pictures and video. Integrated new technology to the website for automation and data visualization for marketing performance reports. Adopted industry standard methodologies to improve the development team's workflow. Lead and managed the development team through numerous projects. Managed an offsite server that hosted the website and 3 other website for organizations the company owned.

Accomplishments:

- Created APIs and scripts to automate and track leads from form submissions to multiple locations: emails, our CRM platform, the content management system.
- Lead the team forward and implemented a new design for the website.
- Designed and implemented a robust ecommerce solution using NextJS (<https://supacommerce.jkbpro.dev>)
- Integrated many APIs to help improve the companies sales and provide value to the marketing team to create intelligent content for social media and website. APIs include: Google Maps, Keap, Twitter, Facebook, Zoom, Amazon, and more.

RoyaltyBusayo
